Strong Words of Commenda tion From Dr. John R. Mott.

The Community Work program and emphasis of the Young Men's Christian Association is most timely and promising. We have come out inte a new world and into a new day. The experiences of the war period have ac customed the American people to think, plan and act in large dimensions. Programs for altruistic organizations like our which were accept able before the war will no longer sat isfy the American people. Remembering as they do that we were called upon suddenly to minister to a vast army and navy, numbering to the aggregate between 4,000,000 and 5,000,000 men, and that the association movement and its countless friends accepted and met the challenge on a most compre hensive scale and in a wonderful spirit, it is not surprising that they now expect our organization to widen its plans and to extend its helpful ministry to the young manhood and boyhead of entire communities. We must not disappoint these worthy expecta-

We often say that it took the chil dren of Israel forty years to make a forty-days' journey, and this because of their unbelief or their lack of faith. Now that virtually every community in our land, in cities large and small and in rural districts, is wide open to the practical, friendly work of the association as the servant of the churches, and now that conditions are so unusually plastic, let us exhibit the sure grasp of faith and edxercise the tire less energy to make our work community-wide on every hand. The added dangers that have come with the ending of the war likewise summon us to quicken our pace while over exercising studious vigilance to maintain the alty to our most vital principles. Let us remember also the tremendous latent energies in the lives of men and boys, as disclosed and released in the world struggle, and seek to afford an adequate outlet and objective for all these powers.

BEFORE YOU JUDGE, REMEMBER. It was the commanding officer of the division who determined what It Pays You To Ship hours the cantoes should be open and whether or not a should sell to men outside his own division. Criticism and Citizenship

It is the plain, public duty of every citizen to criticize proposed government measures believed to be harmful.

Swift & Company is in a better position perhaps, than others, to understand the meat packing business in all its relations to public and private interests, even though the others may have been giving the subject a great deal of sincere attention.

Swift & Company is convinced that interference with its legitimate business function by governmental agencies, however well intentioned, would be an injury to every man, woman and child who wants meat to eat, as well as to the men who raise the meat and to those who dress and distribute it.

Maximum service that cannot monopolize because of keen competition and lack of control over sources of supply is furnished at a minimum of profit-a fraction of a cent per pound from all sources.

Therefore Swift & Company is taking every legitimate step of citizenship to prevent such interference.

These advertisements are intended to help you, and to help Congress decide what is best to be done. Mistakes are costly and apt to be harmful in these trying times.
